The Common Games:

We will continue to use the common games. A common question asked about the computer generated hands are they truly random? Answer is absolutely. Before common games I used the same Bridge Composer program to generate the hands. Type this link <http://thecommongame.com/CGRandomHandFAQ.html> in the address bar of your browser to read up on the subject. There is wealth information at their site, besides your results. I highly recommend going through their tutorials. As I discover more features of the common games, I will share with you.

Starting Jan 1, 2017, I will discontinue uploading the results on ACBL website as you have same information available at the common games. We will continue to upload results at our unit143 website.

To view the results, please go to www.jPad.club and click on the right side (top) of the home page on the **Common Game's** logo.

To receive the results via email, email your ACBL # (typed in subject line) to: FastResultsHelpDesk@gmail.com (No need for any message in the body of the email)

Free Labels: Please order labels at jPad (see sample).
