

Want to Introduce your family and friends to Bridge?

Please pass this along

Learn Bridge in a Day!

You may ask yourself what Bridge is and why you should learn it. Good question....

The game of Bridge is played with a standard deck of cards with four players; however, it is much more than a game. Bridge is a game full of strategy and builds cooperation, logic, and problem-solving skills. It has even been linked to higher test scores among children as well as assisting in warding off Alzheimer's in adults. It is also a social event that entails communicating with your partner as well as with your opponents. It also develops attributes such as trust and patience. It is a game full of strategy and tactics.

There are a lot of rules, both written and unwritten, in the game of Bridge. We understand it can be intimidating to learn these rules and etiquette and play with others. "Learn Bridge in a Day?" is perfect for beginners. Well-known Bridge Teacher Patty Tucker developed this program and has been used throughout the US. What is unique about this class is that it is slow-paced, and you get to apply what you learn by playing hands under the instructor's guidance. This fun, interactive class is designed for beginners or someone who needs a refresher.

At the end of the Class, you will be ready to play some bridge with your friends and to take your bridge game to the next level.

Location: Bridge Haven, 10421 St. Charles Rock Rd, 63074.
